FOREWORD

In 1985, the second **Directory - Nova Scotia Foodservice Industry** was published. In response to requests from individuals in the food, agriculture and foodservice industries, the Marketing and Economics Branch of the Nova Scotia Department of Agriculture and Marketing is pleased to present the third edition of this publication. It is hoped that the 1988 **Foodservice Directory** will prove to be as successful in meeting present needs as its predecessor.

The information collected for this Directory was obtained May through October of 1987. Visitation with commercial foodservice operators during that period was extremely valuable in updating the listing contained in the second edition. This was supplemented with phone calls and information supplied to us by the provincial government departments, their boards and related agencies and by associations, groups and individuals with direct knowledge of foodservice establishments in various areas of the province.

The **Foodservice Directory** is a guide to and for the Nova Scotia Foodservice Industry. It provides the names and contacts of over 2500 commercial and institutional foodservice establishments. Brokers and distributors who serve the foodservice trade are also included. Agencies, associations and government departments supplving resource and/or support services to the various sectors of the foodservice industry are also outlined.

Nova Scotia agriculture and related industries will be enhanced by knowing the scope and specifics of the foodservice market - that is, the key players and their respective needs and requirements. In turn, the foodservice industry will be better served if the products and capabilities of the agriculture and food industries are known. It is with these aims in mind that the 1988 Nova Scotia **Foodservice Directory** is published.

It is my hope that all those affiliated with the foodservice industry will find the Directory beneficial. Any errors or omissions on our part are not by intent, and for them we apologize. Any corrections, comments or questions that the reader may have may be directed to:
